Institutional Investors Only

This is an interactive workshop for institutional investors only (the organizer will not take part in this workshop). The workshop is designed to allow the free and uninhibited exchange of ideas and discussion of different approaches and experiences among institutional investors with the handling of class actions, opt-outs, claims filing and non-class action claims around the world (e.g. policy-making, procedures, handling of publicity issues). Institutional investors can freely share ideas, foster cooperation and develop common practices at the workshop, which will hopefully lead to follow up discussions, cross-border initiatives and/or common approaches to certain problems.
