As we continue to navigate these difficult times, institutional investors must remain aware of the options they have to protect their interests and rights to recoveries due to corporate governance failures and fraud. While the U.S. class action system continues to be a strong solution for U.S. based transactions, the ever-growing field of international securities litigation remains an important aspect of a comprehensive loss recovery framework.

We will be joined by Mr. Kevin LaCroix, Executive Vice President, RT ProExec/R-T Specialty, LLC, and a prominent authority in securities and insurance matters, as well as the author of the very popular The D&O Diary.

Additionally, our local counsel from Brazil, Mr. Cláudio Finkelstein, a leader in Brazilian securities arbitration will be discussing developments in Brazil and the upcoming filing of the arbitration against Vale S.A.

We will also have Mr. Marc Schiefer and Mr. Maximilian Weiss from TILP Litigation Rechtsanwaltsgesellschaft mbH, discussing the latest in the German model case procedures, recent changes to local law that impact how claims must be filed. Mr. Schiefer and Mr. Weiss will also discuss the ongoing cases against Daimler AG and the upcoming action related to Wirecard AG.
